GeODin 9 - License Update

Software License
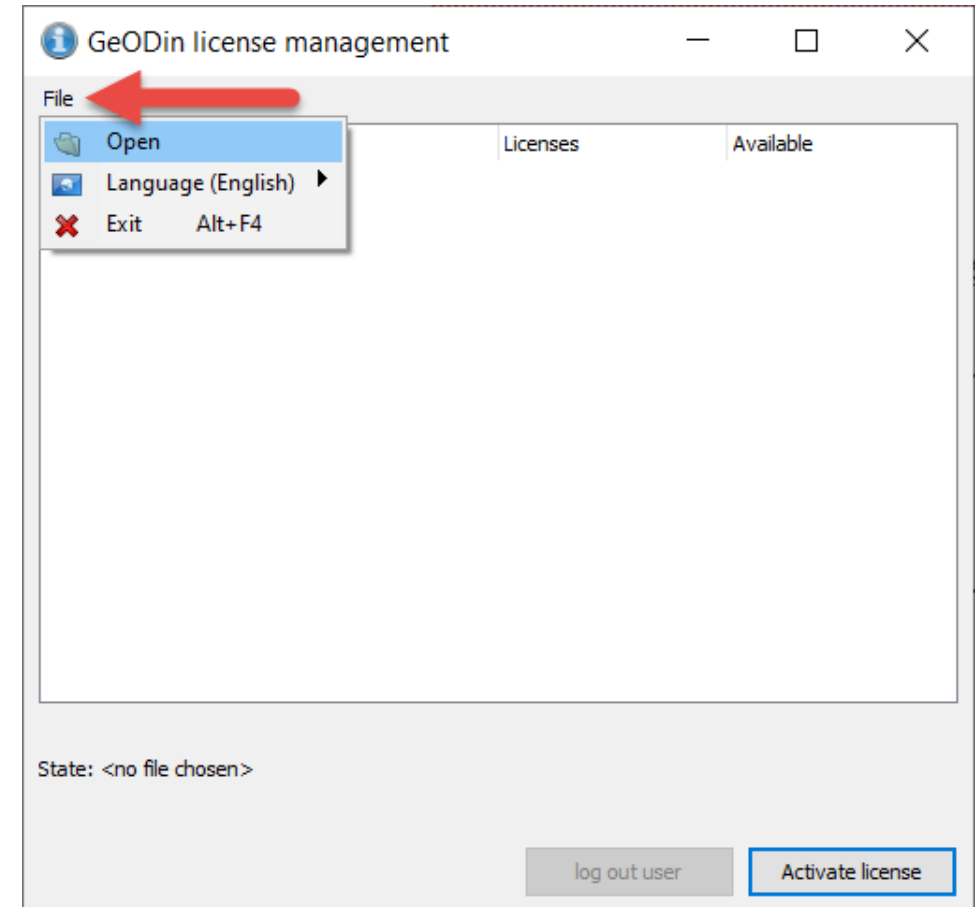

Step 1: GLicenseViewer

Please download the GLicenseViewer from here:
http://download.geodin.com/driver/softwarelicense/GlicenseViewer.zip.
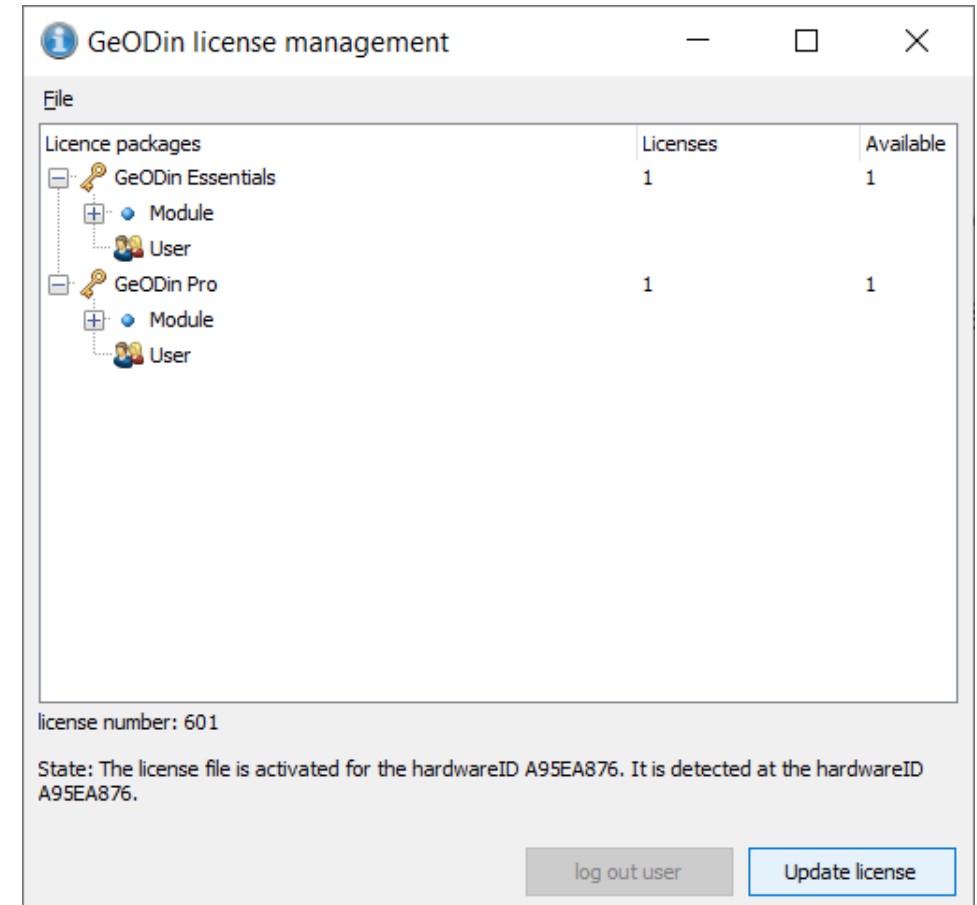

Unzip the download and run it by double-clicking. Press *File* → *Open* and navigate to the license file (**geodin.lic**) that was written to a directory of your choice as part of the initial installation.

**Important**: You will need an Internet connection to update your software license.

Step 2: License information

After selecting the geodin.lic the current license information, i.e. the GeODin edition(s) or module combination(s) and, if applicable, the license expiration date will be displayed. Click on the button <**Update License**>.
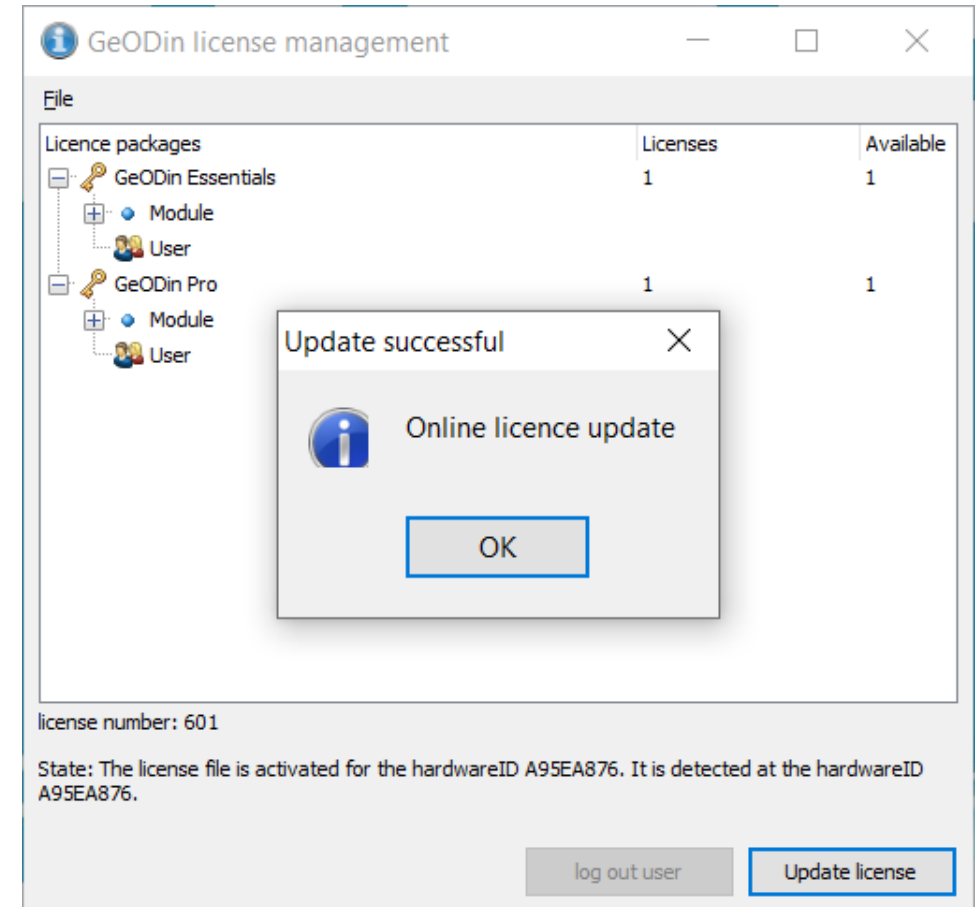

Step 3: Serial number

Enter the **license serial number** which you have received from the GeODin support team. Press <OK>.

Step 4: License update successful

Now the license changes are retrieved online and assigned to the license. The license update is complete.
